

## THE AUTHENTIX DIFFERENCE

At Authentix we believe that true beauty can be achieved naturally. Our aim is to use and sell products in the salon that are: organic and/or natural where possible; not tested on animals; contain no animal derivatives; and are sourced from fair trade principles. This ensures maintaining optimal health while still achieving your desired results.

We use the highest grade of wax, ensuring that no client suffers any sensitivities and/or reactions. This also reduces the discomfort associated with waxing.

## FACIALS

Whether you choose an express facial, a unique bi-phase peel or an Intensive Cosmeceutical treatment, your therapist will analyse your skin, discuss your concerns and goals with you, and then use and recommend products that can best achieve your desired results.

SSLED – Seven Spectrum LED Light Therapy is a non-invasive treatment that targets all skin conditions including acne, pigmentation, aging, fine lines and scarring, rosacea, stretch marks, de-hydration, inflammation, psoriasis, eczema and sagging skin. It strengthens the skin and can increase collagen production by up to 200%.

Dermalogica – When Dermalogica meets skin, skin health is redefined. It delivers results through professional recommendation, not through sparkly packaging, promises of miracle cures or overblown hype. They have a no animal testing policy and it is environmentally friendly. This is why we chose this professional product line.

Bernard Cassière Paris – A professional-only treatment range from Paris, now available in Australia exclusively through approved salons. The beauty alternative, with a unique concept that combines creativity, originality, modernity and nature. A socially responsible company with strong ethical values. Fair trade principles – buying actives from the region they originate at a fair price and with environmental protection. Natural extracts of aloe vera, bamboo, argan, bilberry, lemon, mint and berries. The range also encompasses a unique hydroxyl peeling technique using glycolic combined with pomegranate extracts for maximum results.

## COLON HYDROTHERAPY

Colon hydrotherapy is the introduction of warm filtered water into the colon, effectively removing waste material. This results in a healthy digestive environment, encouraging the growth of healthy bacteria.

Generally our digestive systems are overworked and sluggish due to overeating, medications, fast foods, processed and GM foods, toxins, alcohol consumption and stress. This contributes to poor digestion which can result in excessive gas, bloating and/or constipation.

Colon hydrotherapy cleanses your colon, detoxes the body and reduces digestive discomfort, it also helps minimize the chances of bowel cancer forming.

It can assist in a range of issues including constipation, bloating, flatulence, depression/anxiety, poor skin health, infertility, weight management, low immune systems, disturbed sleep, IBS/Crones and concentration problems.
